

HAVE YOUR POTATOES EXAMINED AT NAK Services AND GET THE BEST INSIGHT INTO THE QUALITY OF YOUR SEED POTATOES

- We give you the best insights into the quality of your potatoes by examining your product on several viruses and other diseases with the most advanced techniques.
- Inside our modern DNA laboratory we work according to the EN-ISO 17025 norms and quality standards.
- Our specialized and qualified analysts will work on your product which guarantees the best results in predicting the disease status of your material.

Follow the steps below to find out what is the best test for your tubers:

1. The kind of examination you want depends on the quality of your tubers, the tests, virus combination and the priority you want.

Choose your test:

Most used test method

2. --> Choose PCR or Elisa test (only for virus possible)

PCR test
fast test

ELISA test
slow test

3. In case of PCR, you can choose a combination test for a combined examination on several diseases.

Combination test¹⁾
200 tubers
polypropbag

Virus test
PVY, PVA, PVX, PVS, PVM, PVV,
PLRV, PMTV, TSWV
110 tubers
mashbag

4. On which disease or virus you want your material to be examined on? In which way will your material be merged?

Virus
PVY, PVA, PVX, PLRV
Optional PVS
Merging 4 x 50 tubers

Erwinia
Merging 4 x 50 tubers

Brownrot/ringrot²⁾
Merging 1 x 200 tubers

M. chitwoodi & fallax
Merging 2 x 100 tubers

Merges
4 leaves

No merging
Single tuber test

5. In what time span will you get the results? What are the costs?

< 2 weeks
virus: € 165,-

< 3 weeks
Erwinia: € 75,-³⁾

< 2 weeks
€ 97,10

< 4 weeks
€ 125,⁴⁾

< 6 - 9 weeks
€ 61,- to € 123,50

< 6-9 weeks
Costs on request

1) It is also possible to choose no combination or to choose one test or less combinations.

2) The first fast screening is an IF method. Second screening is a PCR test.

3) In the PCR test, Erwinia without virus costs 165 euro! A combined examination gives you a price advantage & efficiency in collecting tubers.

4) In the PCR test, M. chitwoodi and fallax without virus costs 165 euro! A combined examination gives you a price advantage & efficiency in collecting tubers.
